

Your whole factory floor — live in your pocket.

Complete, real-time visibility into every machine, every operator and every job — without walking the floor or relying on registers and guesswork.

Less guesswork. More output. Higher profit.

• THE PROBLEM

You can't fix what you can't see.

Most factories run blind. Here's everything you really know about your floor right now — in real time:

Your shop floor, today

NO LIVE DATA

OUTPUT	EFFICIENCY	DOWNTIME	TRUE COST
?	?	?	?
● NC-01 — ?			
● NC-02 — ?			
● MC-01 — ?			
● NC-03 — ?			

i In real time, this is all you really know — **nothing**.

Hidden downtime

Idle hours no one counts

Late breakdowns

Found out far too late

Costs are guesswork

You price on a hunch

Tap as you work. See it all live.

Three steps. No paperwork, no registers, no waiting for the end of the shift.

1

Mount tablets

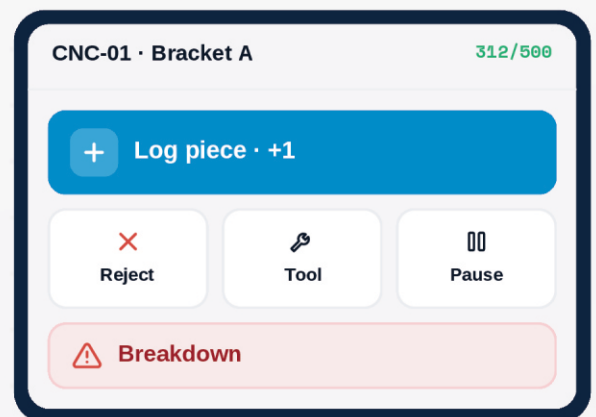

A rugged Android tablet sits beside every CNC machine — no wiring, no new hardware.

2

Operators tap

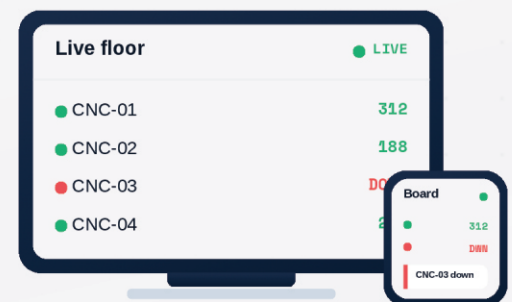

Pieces, rejections, tool changes, breakdowns — logged in seconds at the machine.

3

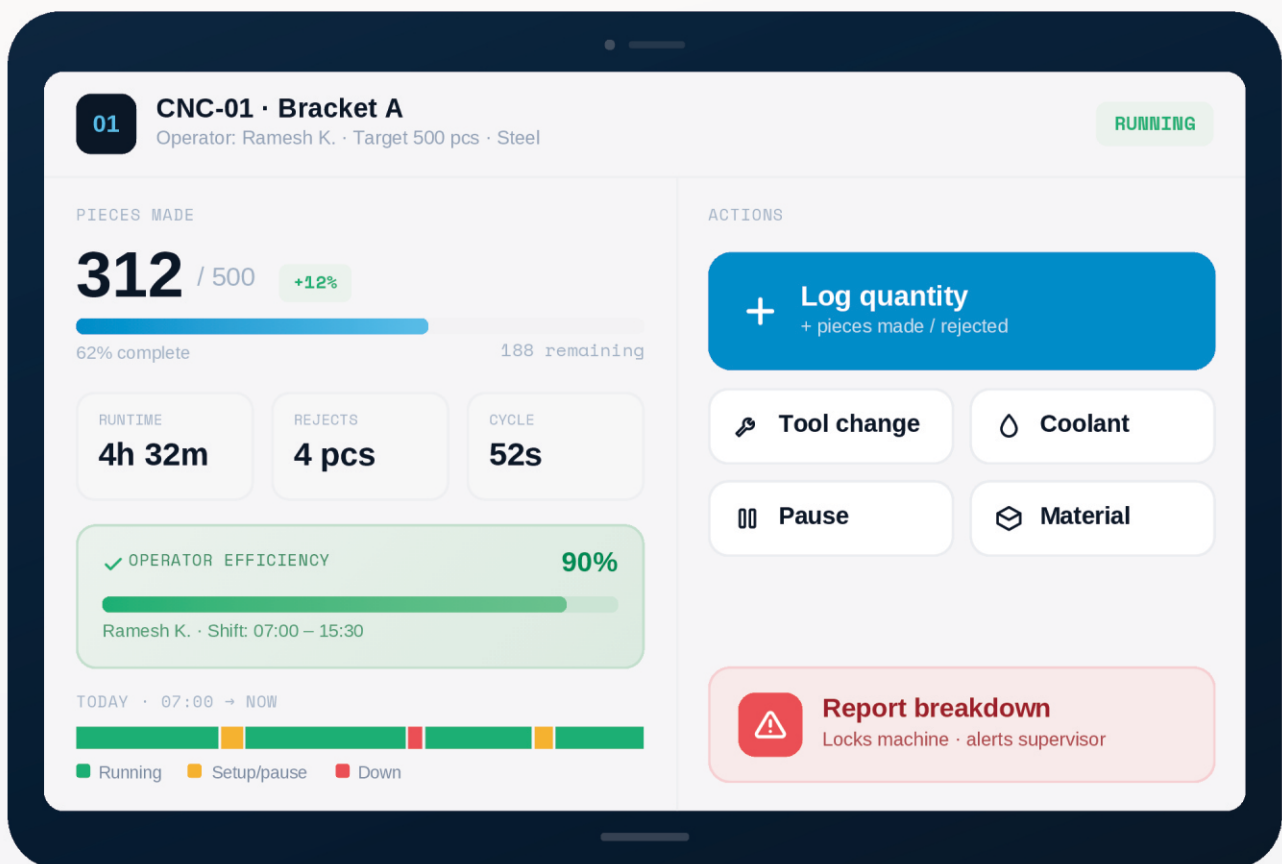

You see it all

Phone, laptop, wall TV — your whole floor live, from anywhere.

Dead simple for operators.

They just tap as they work — no training, no paperwork. It even keeps running if the internet drops.

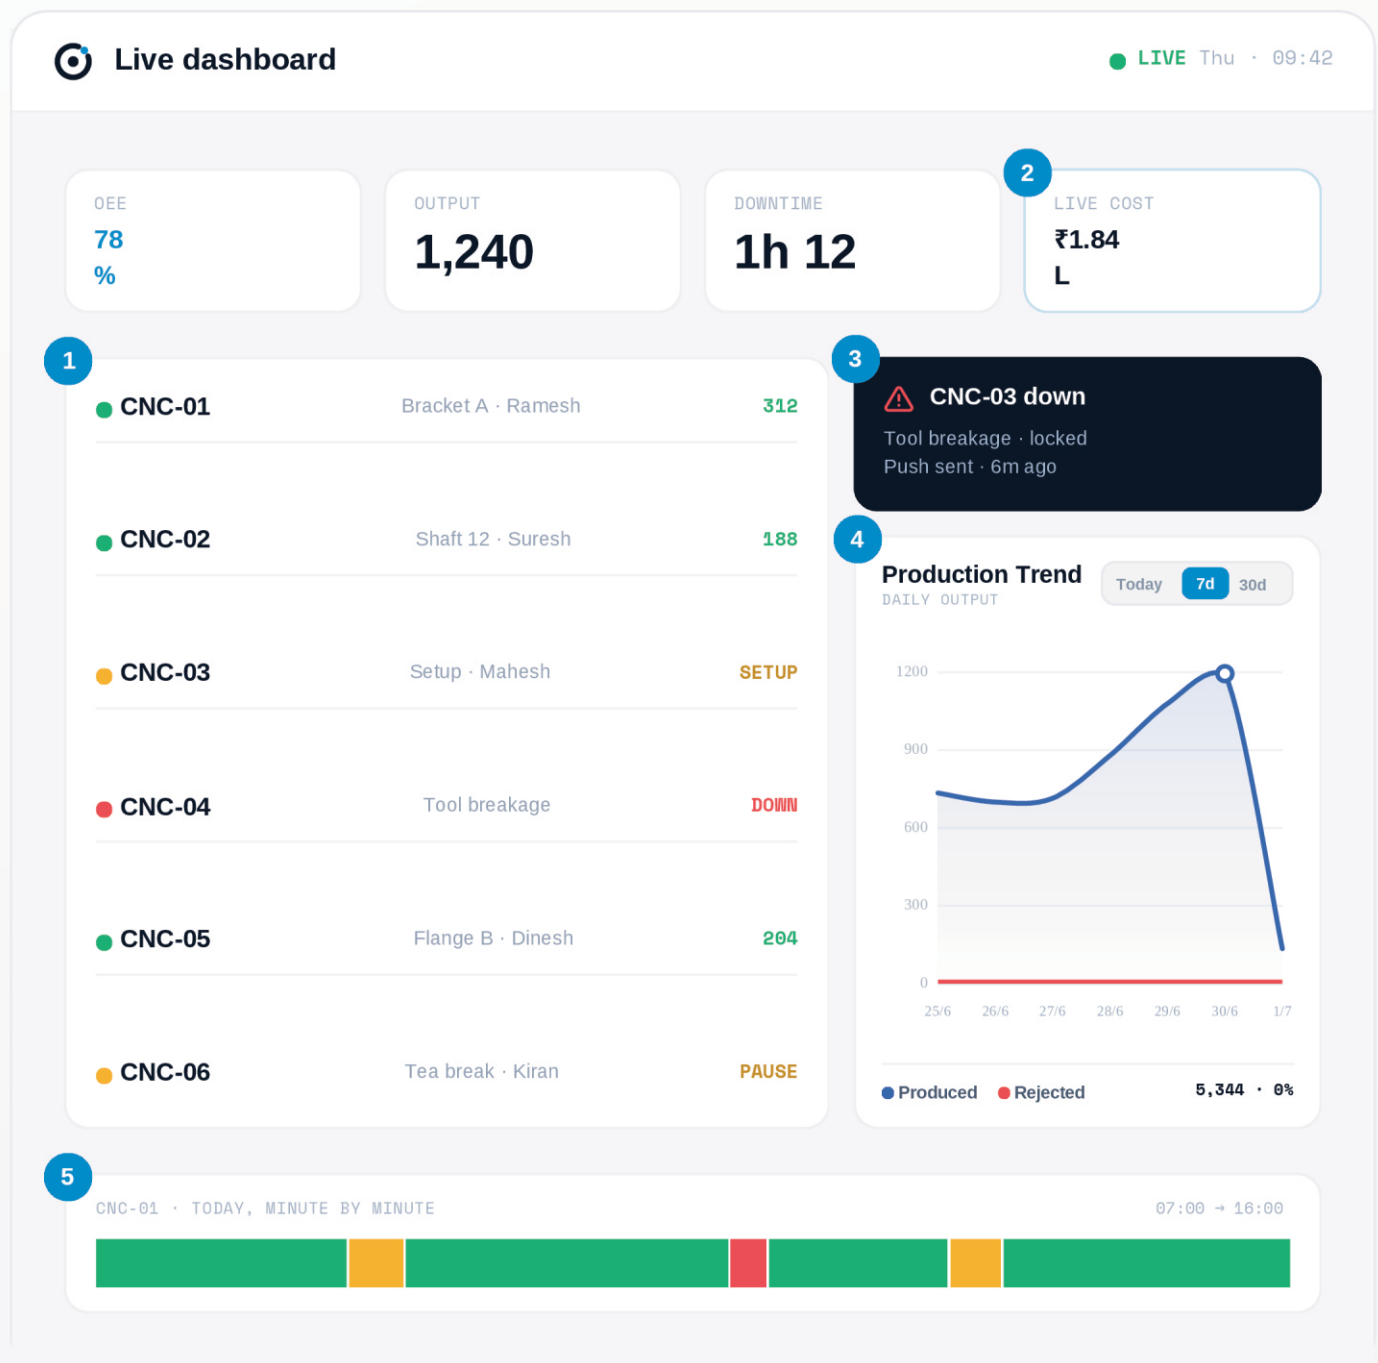

The operator tap screen

Everything an operator needs — job, progress, actions and efficiency in one view

Your whole factory, on one screen.

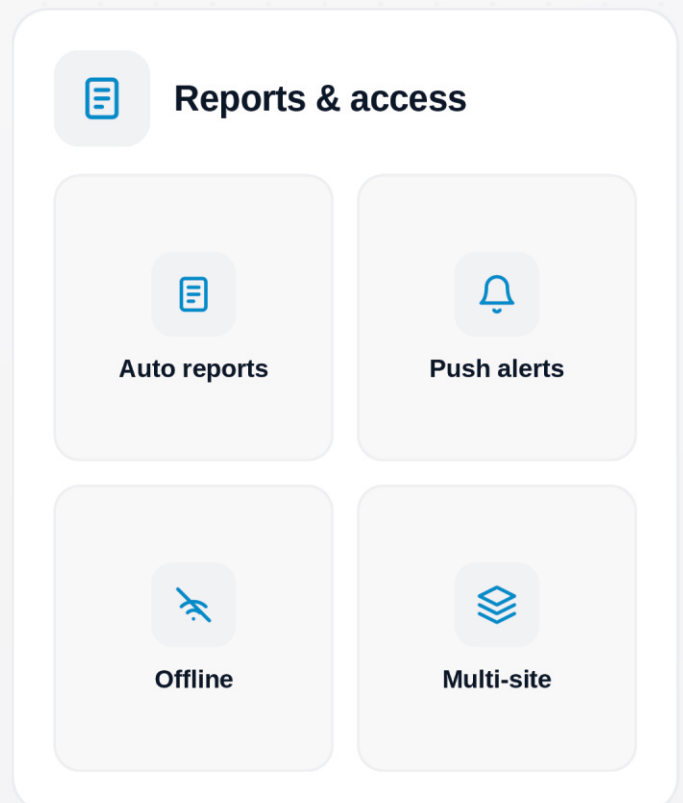

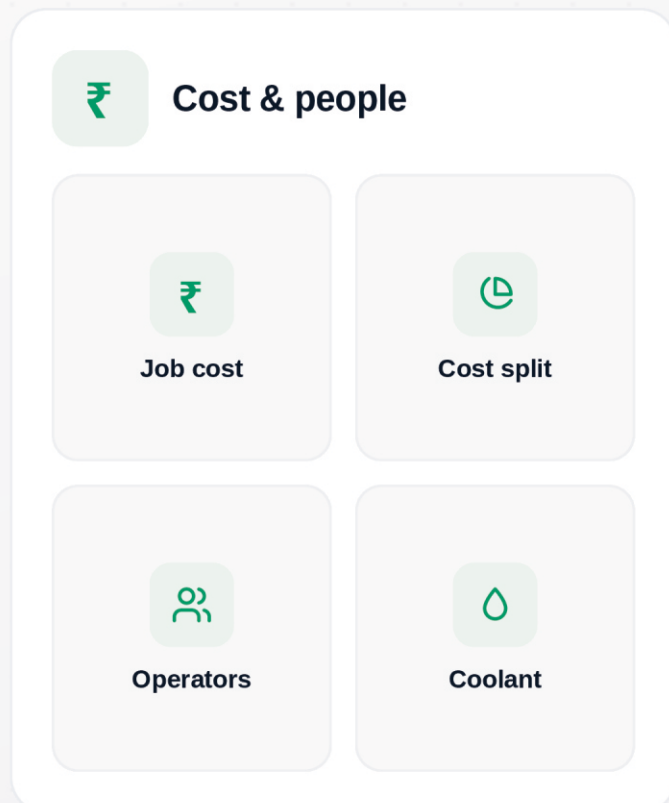

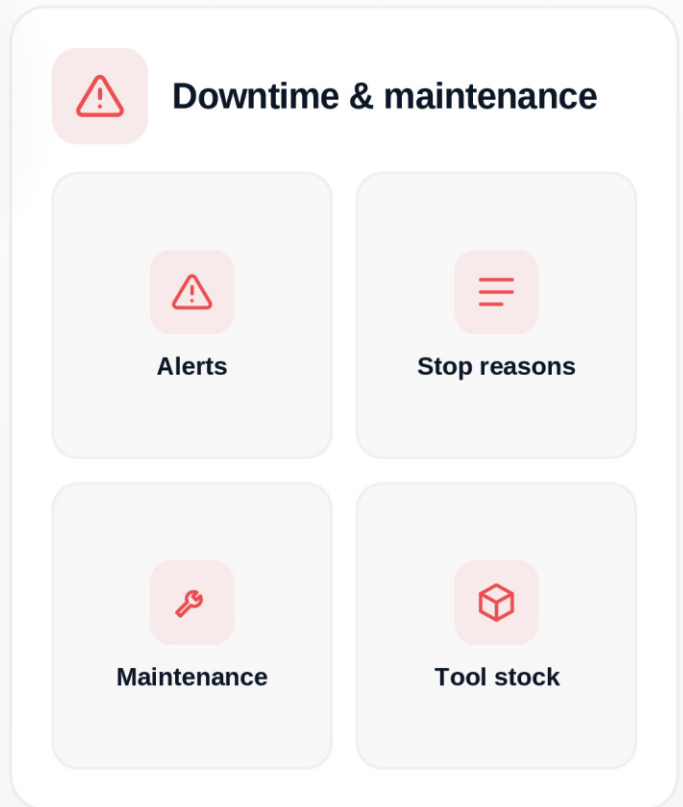

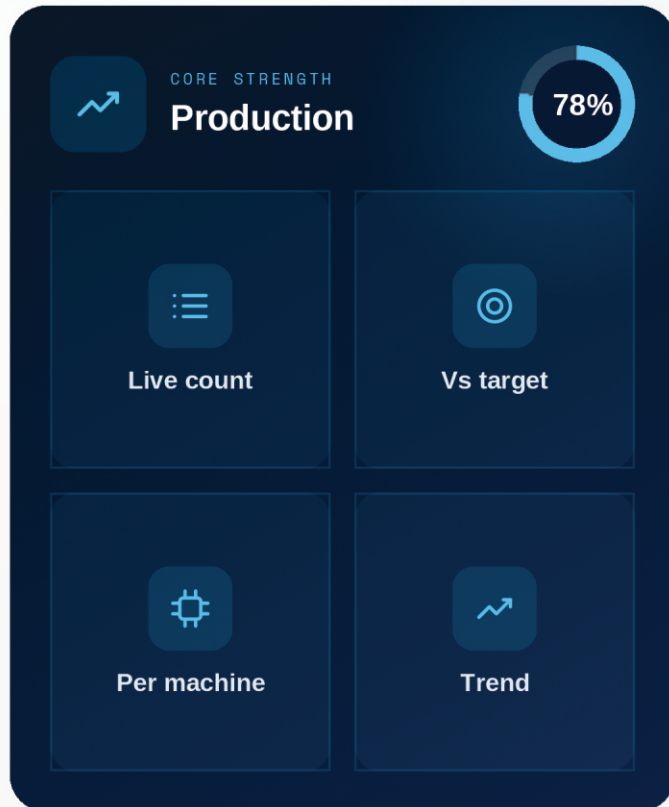

One live view — every machine, number and alert — updating the moment it happens.

- 1 Live machine board
- 2 KPIs + live job cost
- 3 Instant breakdown alert
- 4 Production trend
- 5 Minute-by-minute history

One system. Total control.

16
capabilities,
four simple areas

Produce more. Waste less. — Earn higher profit.

The same factory, on live data instead of guesswork. Here's what changes on day one.

WITHOUT OPEEYE		WITH OPEEYE	
Running blind		Running on data	
OUTPUT ✗ Guess the numbers		OUTPUT ✓ Live output, every machine	
DOWNTIME ✗ Hear about it hours later		DOWNTIME ✓ Instant breakdown alerts	
COSTING ✗ Price on gut feeling		COSTING ✓ True cost of every job	
RECORDS ✗ Registers & whiteboards		RECORDS ✓ Automatic, accurate logs	
PEOPLE ✗ No idea who's efficient		PEOPLE ✓ Fair, measured output	
PRESENCE ✗ Tied to the factory		PRESENCE ✓ Monitor from anywhere	

REAL-TIME FACTORY INTELLIGENCE

See what your machines are doing right now.

See every
machine live

Catch
downtime
the moment it
hits

Know the true
cost of every
job
